

LX-ME/8000 Series Limit Switches

Thank you very much for using C-Lin brand Limit Switches!
Please read the user manual before using the product!

23B001E1

I. Overview

The LX-ME/8000 series limit switches are suitable for control circuits or auxiliary circuits with AC 50Hz/60Hz (voltage up to 380V) or DC (voltage up to 250V). They are used for control, limit, positioning, travel, signal or program conversion. This series of limit switches features excellent performance, high operational reliability, long service life, strong water and oil resistance, as well as a compact, exquisite and elegant appearance. They are widely applied in machinery, electronics, light industry, military and other industries.

II. Main Features

1. Double-circuit limit switch.
2. Sturdy structure, composed of zinc alloy and reinforced plastic.
3. Small size, water and oil resistant.
4. Equipped with large over travel (OT) operation.
5. Conduit design for easy wiring. Multiple types of actuators for convenient use.

III. Model and Its Interpretation

Note 1
8104: Roller lever swing arm type
8122: Vertical roller plunger type
8107: Adjustable metal rod swing arm type
8166: Plastic flexible rod universal type
8108: Roller lever swing arm type
8168: Metal flexible rod universal type
8111: Plunger type
8169: Steel wire flexible rod universal type
8112: Horizontal roller plunger type
9101: Spring coil universal type

IV. Rated Values

Rated Voltage	Non-inductive Load				Inductive Load			
	Resistive Load		Lamp Load		Inductive Load		Motor Load	
	NC	NO	NC	NO	NC	NO	NC	NO
125VAC 250VAC 500VAC	5 5	5 5	1.5 1	0.7 0.5	3 3	3 3	2 1.5	1 0.8
8VDC 14VDC 30VDC 125VDC 250VDC	5 5 5 0.4 0.2	5 5 5 0.4 0.2	3 3 3	3 3 3	5 4 4 4	4 4 4	3 3 3	3 3 3
Inrush Current	N.C. ≤24A N.O. ≤12A

VII.Operation Characteristics

Parameter	LX- ME8104	LX- ME8108	LX- ME8107	LX- ME8111	LX- ME8112/8122	LX- ME8166/8167/8168/8169
OF Max.	750g	750g	750g	900g	900g	150g
RF Min.	100g	100g	100g	150g	150g	—
PT Max.	20°	20°	20°	1.5mm	1.5mm	30mm
OT Min.	50°	50°	50°	4mm	4mm	—
MD Max.	12°	12°	12°	1mm	1mm	—
OP	—	—	—	26±0.8mm	37±0.8mm	—

VIII.Performance

Operating Speed	0.5mm~50cm/s
Operating Frequency	Mechanical: 120 cycles/min; Electrical: 30 cycles/min
Contact Resistance	≤25mΩ (initial)
Insulation Resistance	≥100MΩ (at ≤500VDC)
Withstand Voltage	Between non-consecutive terminals: 1,000VAC, 50/60Hz for 1 minute Between live parts and ground: 2000VAC, 50/60Hz for 1 minute
Vibration	Misoperation resistance: 10Hz~55Hz, 1.5mm double amplitude
Impact	Mechanical resistance: 1,000m/s²; Misoperation resistance: 300m/s²
Ambient Temperature	During operation: -5°C~+65°C
Ambient Humidity	≤95%RH
Service Life	Mechanical: ≥20 million cycles; Electrical: ≥300,000 cycles
Protection Rating	IP65

IX.Installation Diagram

Fully open wiring structure for easier wiring operations:
Remove the bottom cover, and the terminal area is fully exposed — this eliminates the trouble of inserting fingers into holes for wiring. Despite the product’s small size, it offers ample wiring space; the terminals You can either tighten the wires directly with screws or use U-shaped or circular crimp terminals for wiring.

Can be installed from the front or rear

X.Appearance and Dimensions

LX-ME8104

Operating Characteristics

Maximum Operating Force (OF): 7.4N (0.75kgf)
Minimum Return Force (RF): 0.1N (1kgf)
Maximum Pre-Travel (PT): 20°
Maximum Movement Differential (MD): 50°
Minimum Over-Travel (OT): 12°
Operating Position (OP): N/A

LX-ME8107

Operating Characteristics

Maximum Operating Force (OF): 7.4N (0.75kgf)
Minimum Return Force (RF): 0.1N (1kgf)
Maximum Pre-Travel (PT): 20°
Maximum Movement Differential (MD): 50°
Minimum Over-Travel (OT): 12°
Operating Position (OP): N/A

Operating Characteristics

Maximum Operating Force (OF): 7.4N (0.75kgf) Minimum
Return Force (RF): 0.1N (1kgf)
Maximum Pre-Travel (PT): 20°
Maximum Movement Differential (MD): 50°
Minimum Over-Travel (OT): 12°
Operating Position (OP): N/A

LX-ME8108

Operating Characteristics

Maximum Operating Force (OF): 8.9N (0.9kgf)
Minimum Return Force (RF): 1.5N (0.15kgf)
Maximum Pre-Travel (PT): 1.5mm
Maximum Movement Differential (MD): 4mm
Minimum Over-Travel (OT): 1mm
Operating Position (OP): 26±0.8mm

LX-ME8111

Operating Characteristics

Maximum Operating Force (OF): 8.9N (0.9kgf)
Minimum Return Force (RF): 1.5N (0.15kgf)
Maximum Pre-Travel (PT): 1.5mm
Maximum Movement Differential (MD): 4mm
Minimum Over-Travel (OT): 1mm
Operating Position (OP): 37±0.8mm

LX-ME8112

Operating Characteristics

Maximum Operating Force (OF): 8.9N (0.9kgf)
Minimum Return Force (RF): 1.5N (0.15kgf)
Maximum Pre-Travel (PT): 1.5mm
Maximum Movement Differential (MD): 4mm
Minimum Over-Travel (OT): 1mm
Operating Position (OP): 37±0.8mm

LX-ME8122

Operating Characteristics

Maximum Operating Force (OF): 1.5N (0.15kgf)
Minimum Return Force (RF): -
Maximum Pre-Travel (PT): 30mm
Maximum Movement Differential (MD): -
Minimum Over-Travel (OT): -
Operating Position (OP): -

LX-ME81 66

Operating Characteristics

Maximum Operating Force (OF): 1.5N (0.15kgf)
Minimum Return Force (RF): -
Maximum Pre-Travel (PT): 30mm
Maximum Movement Differential (MD): -
Minimum Over-Travel (OT): -
Operating Position (OP): -

LX-ME 816 8

Operating Characteristics

Maximum Operating Force (OF): 1.5N (0.15kgf)
Minimum Return Force (RF): -
Maximum Pre-Travel (PT): 30mm
Maximum Movement Differential (MD): -
Minimum Over-Travel (OT): -
Operating Position (OP): -

LX-ME8 169

Operating Characteristics

Maximum Operating Force (OF): 1.5N (0.15kgf)
Minimum Return Force (RF): -
Maximum Pre-Travel (PT): 30mm
Maximum Movement Differential (MD): -
Minimum Over-Travel (OT): -
Operating Position (OP): -

LX-ME91 01

XI. Mounting Holes and Machining Dimensions

Front Mounting (When the device panel has no through holes)

Front Mounting (When the device panel has through holes)

Rear Mounting

XII. Wiring

The head direction is adjustable (only applicable to LX-ME8108, 8104, 8107):
By loosening a single locking screw, the drive shaft seat can be set in 4 arbitrary directions in 90° increments.

(Continued on next page)

Note: Do not use in water, oil, or areas frequently exposed to water or oil.
