

24-HOUR ANALOG TIMER 24小時定時開關

 德国技术 GERMAN TECHNOLOGY

本产品能根据用户设定的时间，自动打开设备和各种用电设备的电源。控制对象可以使路灯、灯箱、霓虹灯、生产设备、农业养殖、仓库排风除湿、自动预热、广播电视设备等最理想的控制产品。

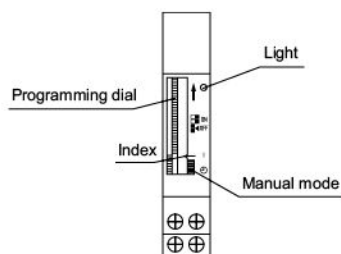

The products according to the time set by the user, automatically turn on and turn off the variety of electrical equipment. Control object can light boxes, neon signs, production equipment, agriculture, aquaculture, warehouse exhaust dehumidifier, automatically preheat optimal control products, such as radio and television equipment.

SUL180A

SUL180N
With light(带指示灯)

Timer

Item No. 型号	SUL180A	SUL180N
Indicator light 指示灯	NO	YES
Operating Voltage 工作电压	85~250VAC	
Frequency 频率	45~60 Hz	
Number of channels 通道数	1	
Width 宽度	18mm	
Installation method Type 安装方式	DIN rail	
Type Of connection 类型的连接	Screw Terminals	
Drive 驱动方式	Quartz-controlled stepper motor	
Program 编程	Daily program	
Power reserve 储电时间	3 days	
Switching capacity 开关容量	250V Ac, Cos ϕ =1 16A 250V Ac, Cos ϕ =0.6 4A	
Incandescent/Halogen lamp load 灯负载功率	1000W	
Shortest switching times 最小开关时间	15 min 15 分	
Type of contact 触点类型	No contact	
Number of switching segments 开关次数	96	
Stand-by consumption 待机消耗	~0.5W	
Type of protection 防护等级	IP20	
Protection class 防护标准	II according to EN 60730-1	
Ambient temperature 工作温度	-10°C ~+50°C
